BIBLIOGRAPHY

This Bibliography contains all references cited in the text. The original chapter Bibliographies have been combined and items listed by chapter authors but not actually cited are omitted. The numerals in parentheses at the very ends of the citations tell which chapters refer to them. When a cited article appears in a book or collection, that item is also listed if it occurs more than once as a secondary citation. Otherwise it is given in the article citation: e.g. compare Albright and Lambdin 1970 and Almeida n.d. Titles of frequently cited journals and one book reference are abbreviated, as are several publishers. Missing information (publishers, page nos., volume and issue nos., etc.) were not available at the time of going to press.
